**IMPORTANT NOTICE**

The all-around best vehicle for the money is the Dodge Stratus. It's the only car in the segment that's also a top pick in the midsize class. The only car we didn't like was the Ford Taurus, which we found to be overpriced and underpowered. The rest of the cars were all very close to each other in terms of value and performance. The average price for a new car in the segment was \$18,000. The average mileage for a new car in the segment was 18,000 miles. The average number of miles driven per year for a new car in the segment was 12,000 miles.
